ACADEMIC HISTORY

UNIVERSITY OF DELAWARE

Bachelor of Science | Aug 2019 - Current

Major: Computer Science
GPA: 3.57
Deans List: Fall 2020, Spring 2021

PROJECTS

Current - Playlist Transfer Service
•Web based application that allows the user to login to their music services (Spotify, Apple Music, YouTube) and copy playlists over from one service to another

Nov 2021 - Personal Website
•Built from the ground up using strictly HTML, CSS, and JavaScript
•Navigate the pages with a styled navbar at the top of every page
•Implemented a responsive design that looks great on all devices

Nov 2021 - Skatestop.github.io
•Implements Google Maps API to display a map where users can pin skate spots for other users to see
•Select a skate spot marker to view pictures and clips at the selected spot
•Upload files and new marker information to a Firebase Realtime Database in order for them to be displayed

Apr 2021 - Garden Simulator
•Used JavaFX and an MVC pattern
•Drag and drop plants from the database onto the garden grid to create a garden (given a budget) that will calculate desired information
•Save finished garden to a local saves folder, which can be accessed at any time from the load menu
•Clean and intuitive UI

WORK EXPERIENCE

INFORMATION TECHNOLOGY SUMMER INTERN

Simsbury Public Schools | Jun 2021 - Aug 2021

•Controlled inventory of electronic equipment across the entire school system to ensure the necessary tools were present
•Repaired broken hardware (cracked screens, broken webcams, etc.) on students' laptops
•Managed cables in classrooms across entire school district

TAKE-OUT COORDINATOR

Little City Pizza Co. | Sep 2017 - Feb 2021

•Managed phone lines and place orders from over the phone
•Cooked and cut pizzas for customers dining in or taking out
•Bused tables promptly after customers left the restaurant
•Formed relationships with customers to ensure good customer service and create repeat business
